

ANANTHU SIVAN

Full stack Developer / Devops

PROFILE

A results-driven full-stack developer with a strong business mindset, specializing in end-to-end software solutions, DevOps, and client management. With expertise in frontend and backend technologies, cloud infrastructure, and CI/CD pipelines, I excel at translating business requirements into scalable applications while streamlining development workflows and optimizing deployments. Adept at managing clients, coordinating teams, and ensuring seamless project execution, I bring a unique blend of technical expertise and strategic thinking to drive business growth and innovation.
